HACKDTU Hackathon V-3.0

Team Name : CODEGUARD

Team Members :
    Vibhor Verma (Leader)
    Mahesh Gahlot
    Sebin Duke Stephan

email id : vibhcool@gmail.com

Phone No. : 7503823243

Project Name : MedLib

Project Idea : **Smart Check-up and Disease diagnosis Application**

This application checkups the user according to the symptoms he/she specifies and diagnosis him/her, determine the most probable disease and it's risk factor and specifies the medical specialist he/she must see.

Work Done Till Now :
1) Idea discussion and development of basic framework of the application → DONE
2) API implementation and database designing → DONE

LAST 6 hours : API integration with the application → DONE
API integration with our web-application is complete. Now we are only left with debugging and designing our application.

You can have a look a our repository at : https://github.com/SebinDuke/MedLib

NEXT 6 hours : Designing, Testing and adding finishing to the application
